

# Getting PAC Storage Logs and Core Dumps

How to export diagnostic logs:

1. Please go to **Settings** → **System** → **Maintenance**.
2. Click on the “**Diagnostic Information**” along the top row.
3. Click the “**Export**” to export Diagnostic logs. (The Export will create a zip file in your browser download folder.)
4. Post the files to PAC Storage Support uploading site at:  
<https://filedrop.pacdata.com/filedrop/customer>
